

## Flotech for Instrumentation & Control install Sonic-Driver Clamp-on Flow Solution® in a WWTP

Flotech for Instrumentation & Control has installed 3 Sonic-Driver – Fixed Clamp-on, Ultrasonic Flow Meters at a Waste Water Treatment Plant (WWTP) in Egypt.

Flotech, Sonic-Driver's Distributor in Egypt has installed the meters on old 600 and 700 mm Ductile iron pipes carrying waste water from Pumping Stations to the Treatment Plant.

Nooh Hafez – Flotech's General Manager says "The Clamp-on Flow Solution® is ideal for this application, the installation went well and the Signal Positioning Oscilloscope on Sonic-Driver's UFM's is a great tool for commissioning and the integral logging functions will be a great for ongoing performance monitoring."

Sonic-Driver's - Clamp-on Flow Solution® offer a best value solution for a wide range of industrial and commercial flow measurement applications including water, waste-water and industrial fluid flow measurements, where Clamp-on, ultrasonic technology offers significant installation and ongoing maintenance benefits over in-line alternatives.
